

THE ESSEX TERMINAL RAILWAY COMPANY

THREE YEAR PLAN

The Essex Terminal Railway Company is operated under Rule 105 Territory (yard limits), covering 31.4 Km's of track, covering three Municipalities, Windsor, LaSalle, and Amherstburg, in the county of Essex, Ontario.

ETR's Three Year Rail Network Plan indicates we do not intend to discontinue operations in the next three years. This plan is kept up to date and also indicates for any of our lines our intent is to continue operations.

Pursuant to Section 141 of the Canada Transportation Act, The Essex Terminal Railway (ETR) has updated its Three Year Rail Network Plan.

The Plan consists of two schedules:

Schedule A is a comprehensive list of those lines on which, within the next three years, ETR intends to take steps to discontinue.

Schedule B is comprised of a Map. It is included to graphically illustrate ETR's rail network and to provide general information only about ETR's Network Plan. A line designated as "To Discontinue" means that ETR intends to discontinue operating the line if it is not transferred.

THE ESSEX TERMINAL RAILWAY COMPANY

SCHEDULE A

The Essex Terminal Railway Three Year Rail Network Plan

August 01, 2018

Following is a comprehensive list of all lines in Essex County, Ontario, Canada that The Essex Terminal Railway intends “To Discontinue” within the next three years.

The list of lines includes all connecting auxiliary track.

Mainline	Province	Between	and	Miles	Km
----------	----------	---------	-----	-------	----
